2008 *tbjkids* Family Friendly Restaurants Review

This is one school kids will be screaming to go back to. Generally serving light and tasty Italian fare, the kids' menu also includes everything from fish and chips to vegetarian spaghetti. The Canteen is part of a larger complex called the Schoolhouse, developed from the site of an abandoned Chinese schoolhouse offering great views of the Great Wall. Far it may be in the Huairou District, but the Schoolhouse offers a pleasant daytrip away from the city.
