

The Schoolhouse Interns

Updated 19 September 2015

The Schoolhouse is proud to have attracted and hosted extraordinary individuals from around the world for internships in our sustainable tourism enterprises at Mutianyu Great Wall. Most of them accomplished a challenging independent project that provided experience and made a contribution to our business. All of them interacted with our local team as well as guests and shared our vision of comradeship, hospitality, and sustainability. We'd like to thank them for their hard work and creativity as well as the cultural diversity they've shared.
